# Local Area Networks and Data Center

Core Products Caribbean and Latin American

A long-exposure photograph of a highway interchange at night, showing light trails from cars moving through the curves of the road.

# Continual Innovation

1970

Developed the first optical fiber capable of maintaining laser light signal strength over significant distance

2005

Launch of Universal wiring in plug-and-play to enable migration to parallel optics

Introduced "low-loss" 0.75 dB modules into Plug & Play™ systems

2008

Introduced Pretium™ integrated solutions, an MTP-based solution tailored for Cisco switches

Announced Plug & Play systems with 100G ready performance

2010

Released 40 and 100G MTP jumpers

2012

Developed first device fully integrated passive port tap into structured cabling

2014

Introduced:

- High-fiber-count trunks
- BiDi TAP modules
- Port replication housing

2018

Acquired substantially all of 3M's high-bandwidth products, expanding the optical solutions for our customers and improving access to broadband connectivity

1944

Corning established its first presence in Brazil in 1944 to meet the demands of Latin America by initially focusing on specialty glass market.

1998

Introduced MTP® factory-terminated Plug & Play systems to the market

2007

Improved standard MM plug-and-play modules to 0.75 dB, and introduced a 0.5 dB low-loss plug-and-play module. Acceptance in Cisco CTDP program

2009

Introduction of Corning® ClearCurve® OM3 and OM4 fiber to the market. Introduced EDGE™ as the first to offer 576-fibers in 4U

Introduced S500 copper jack to support 10G deployment

2011

Introduced 144 1U EDGE housing

2013

Acquired new manufacturing facility in Brazil, allowing local development and manufacturing of adequate solutions for the Latin American market

2015

Launch of EDGE8® Base-8 MTP solution for data centers

## EVOLVE YOUR NETWORK.

# TRANSFORM THE WORLD.

Specifying, purchasing, and installing your local area network (LAN) or data center has never been easier. We've provided at-a-glance ordering information for our most popular products; these modular components are stocked by our authorized distributors for the fastest lead times. Also included in this guide is information about our newest products and the resources we've created to help save you time and money – because products are only part of what it takes to build a reliable, future-ready network.

# Think you know Corning closures? Take another look.

As your network grows, so does our fiber closure line.  
As your network expands, so have our fiber closure products.

## Corning Fiber Optic Splice Closures

Knowing just a few basics about where you need fiber closures, what kind of connections you're making, and your plans for expansion can help you make the right decision for your network today and as it grows. Our full line of closures includes products newly available to Corning, like BPEO and the 2178 family, augmenting the existing closure portfolio you've seen in the past, as CEFO. With the most extensive fiber closure portfolio deployed worldwide, Corning is a proven choice for your next installation.

Contact customer care to learn more about how to choose the right fiber closure for your application.

Corning® Fiber Optic Closures 2178

# Highly scalable, flexible networking.

## Software-Defined Local Area Network (SD-LAN)

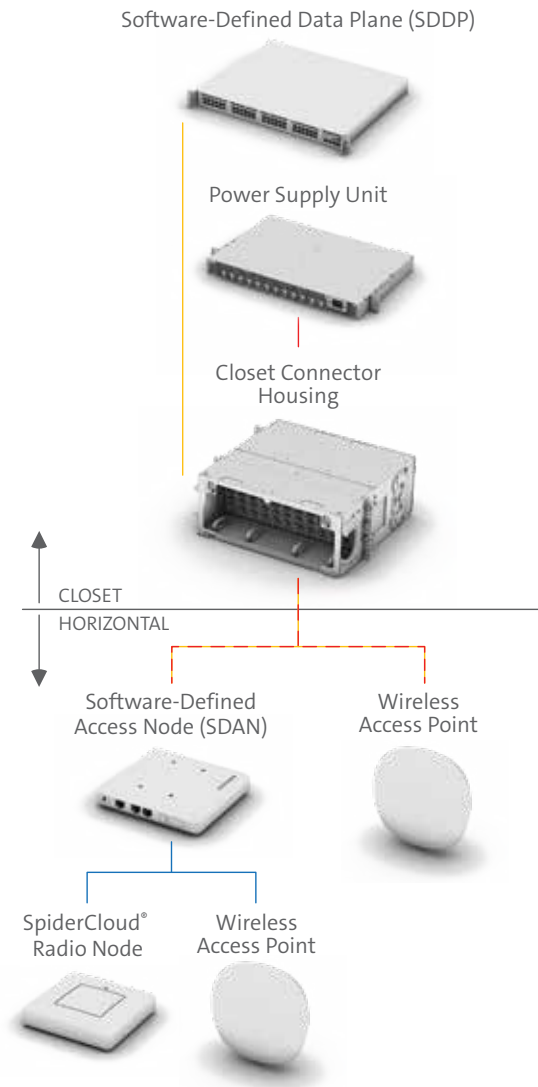

Our new SD-LAN portfolio provides a truly adaptable, scalable, and intelligent software-defined technology that decouples hardware and software layers, centralizing network management with flexible topology options to reduce upgrade costs.

The platform is technology-neutral, supporting active Ethernet deep into the network and passive optical LAN over a software-defined network architecture.

## Enterprise-Ready, Small Cell Solutions

For enterprises looking to control their own cellular coverage and capacity, Corning small cell solutions deliver a high-capacity cellular signal that can cover a single building, distributed facilities, or a campus environment. Our small cell solutions are now available to any enterprise unsatisfied with its cellular service and are backed by a mobile operator-approved implementation process and support resources.

# Smaller cables, bigger possibilities

## MiniXtend® HD cable with binderless\* FastAccess® technology

Extreme-density networks are here to stay. That's why we invented MiniXtend HD cable with binderless FastAccess technology – our highest density micro cable. Featuring Corning® SMF-28® Ultra 200 fiber, with fiber counts up to 288, our MiniXtend HD cable is up to 20 percent smaller than standard micro cables, improves the utilization of limited duct space, and provides for scalable upgrades in the future.

To make installation faster and easier, we've incorporated our FastAccess technology which enables up to 70 percent faster cable access and reduced risk of buffer tube damage.

**Experience industry-leading density from a small cable with big possibilities!**

## Are you future-ready?

Visit [corning.com/minixtend](https://www.corning.com/minixtend) to learn more.

\*Corning's proprietary binderless FastAccess® technology refers to the combination of a Corning FastAccess technology jacket with an innovative technology used to bind cable construction through the manufacturing process, eliminating the use of binder yarns and waterblocking tapes.

The optical infrastructure in today's data center must deliver a competitive advantage, an immediate lower cost of ownership, and an evolution path to support next-generation applications. Corning can help.

Our solutions enable high-density, cost-effective 10G deployments and the simplest migration to 40, 100, and even 400G.

### Trunks

Non-Armored Plenum Trunks, 33-in Leg Length, Pinned MTP® to Pinned MTP, Pulling Grip One Side	
Fiber Count	Catalog Part Number
08	GE7E708GPNDUxxxM
16	GE7E716GPNDUxxxM
24	GE7E724GPNDUxxxM
32	GE7E732GPNDUxxxM
48	GE7E748GPNDUxxxM
72	GE7E772GPNDUxxxM
96	GE7E796GPNDUxxxM
144	GE7E7E4GPNDUxxxM
192	GE7E7K2GPNDUxxxM
288	GE7E7U8GPNDUxxxM

**Notes:**

- xxx = cable length of 001-999 m.
- 1 m increments measured from furcation plug to furcation plug.
- Lengths beyond 999 m available.

### Panels/Modules

Panels	
EDGE8-CP08-V1	8 F MTP Adapter Panel
EDGE8-CP16-V1	16 F MTP Adapter Panel
EDGE8-CP24-V1	24 F MTP Adapter Panel
EDGE8-CP32-V1	32 F MTP Adapter Panel

### Harnesses

Harnesses – Pinned	
HE77808GPH-1BxxxM	EDGE8® MTP to LC Staggered Harness, 8 F, single-mode (OS2), MTP PRO (pinned) to LC duplex uniboot, TIA-568 type-B polarity, type-1 stagger, xxx m
HE77808GPH-2BxxxM	EDGE8 MTP to LC Staggered Harness, 8 F, single-mode (OS2), MTP PRO (pinned) to LC duplex uniboot, TIA-568 type-B polarity, type-2 stagger, xxx m
HE77808GPH-3BxxxM	EDGE8 MTP to LC Staggered Harness, 8 F, single-mode (OS2), MTP PRO (pinned) to LC duplex uniboot, TIA-568 type-B polarity, type-3 stagger, xxx m
HE77808GPH-4BxxxM	EDGE8 MTP to LC Staggered Harness, 8 F, single-mode (OS2), MTP PRO (pinned) to LC duplex uniboot, TIA-568 type-B polarity, type-4 stagger, xxx m
HE77808GPH-5BxxxM	EDGE8 MTP to LC Staggered Harness, 8 F, single-mode (OS2), MTP PRO (pinned) to LC duplex uniboot, TIA-568 type-B polarity, type 5 stagger, xxx m
Harnesses – Non-Pinned	
HE87808GPH-1AxxxM	EDGE8 MTP to LC Staggered Harness, 8 F, single-mode (OS2), MTP PRO (non-pinned) to LC duplex uniboot, TIA-568 type-A polarity, type-1 stagger, xxx m
HE87808GPH-2AxxxM	EDGE8 MTP to LC Staggered Harness, 8 F, single-mode (OS2), MTP PRO (non-pinned) to LC duplex uniboot, TIA-568 type-A polarity, type-2 stagger, xxx m
HE87808GPH-3AxxxM	EDGE8 MTP to LC Staggered Harness, 8 F, single-mode (OS2), MTP PRO (non-pinned) to LC duplex uniboot, TIA-568 type-A polarity, type-3 stagger, xxx m
HE87808GPH-4AxxxM	EDGE8 MTP to LC Staggered Harness, 8 F, single-mode (OS2), MTP PRO (non-pinned) to LC duplex uniboot, TIA-568 type-A polarity, type-4 stagger, xxx m
HE87808GPH-5AxxxM	EDGE8 MTP to LC Staggered Harness, 8 F, single-mode (OS2), MTP PRO (non-pinned) to LC duplex uniboot, TIA-568 type-A polarity, type-5 stagger, xxx m

**Notes:**

- For stagger selection, reference applications engineering note AEN157.
- xxx = harness length up to 5 m.

Module	
ECM8-UM08-04-E8G-ULL	12 F Ultra-Low-Loss LC UPC Duplex to Non-Pinned MTP

Port Breakout Module	
ECM8-04E8-GE8B-xxxM	Non-Pinned MTP to LC Duplex, plenum, type-B, xxx m

Tap Modules	
ETM8-50A-G	EDGE8 Tap Module, type-A (LC to LC), OS2, 50/50 split ratio
ETM8-50B-G	EDGE8 Tap Module, type-B (MTP to LC), OS2, 50/50 split ratio
ETM8-50C-G	EDGE8 Tap Module, type-C (MTP to MTP), OS2, 50/50 split ratio
ETM8-70A-G	EDGE8 Tap Module, type-A (LC to LC), OS2, 70/30 split ratio
ETM8-70B-G	EDGE8 Tap Module, type-B (MTP to LC), OS2, 70/30 split ratio
ETM8-70C-G	EDGE8 Tap Module, type-C, (MTP to MTP), OS2, 70/30 split ratio

Note: xxx = cable length up to 20 m.

# See the Light® Fiber Optic Training

So you can be successful in this time of rapid network transformation, we offer an array of training opportunities on the latest applications and products. For the most up-to-date industry knowledge – whether training in-person or at your desk – we have you covered. Visit [corning.com/opcomm/stl](http://corning.com/opcomm/stl) for a full list of our training offerings.

## Webinar Series

Stay current with the See the Light® webinar series, our monthly offering focused on specific topics impacting networks today. Participate in these one-hour live webinars to connect in real-time with Corning experts, or catch up on the webinar recordings at your convenience.

To find the full list of available webinars, visit: [corning.com/opcomm/webinars](http://corning.com/opcomm/webinars)

## Instructor-Led Classes and Seminars

If it's classroom training that you feel is most valuable, our instructor-led courses are for you. We cover product and solution introductions, in-depth installation training, and classes focused on designing networks and specifying products. These classes range from two to three hours to multiday hands-on training sessions, each led by field instructors and experts who understand the needs of industry professionals.

To view our hands-on seminar schedule visit:  
[corning.com/opcomm/seminars](http://corning.com/opcomm/seminars)

To view our multiday design and installation training courses visit:  
[corning.com/opcomm/designandinstall](http://corning.com/opcomm/designandinstall)

## Online Learning

We understand that classroom training is not always an option. Distributors in Central American and Latin American regions have access to all trainings that are offered in the United States.

Email [stlinfo@corning.com](mailto:stlinfo@corning.com) to access U.S. trainings through our See the Light program.

If you are interested in training opportunities specific to your region, please email [marktngcal@corning.com](mailto:marktngcal@corning.com)

## Industry-Approved Courses

Many of our courses and webinars have been approved by industry organizations, making it easy for you to continue your education while earning industry accreditations. Accreditation information can be found within the individual course listings or on our website.

For more information or to sign up to receive email updates on training visit:

## Programa de Garantia Extendida

Programa de garantia extendida (PGE) connects network operators with local fiber optic installers meeting Corning's quality and training requirements. We are so confident that our preferred installers are the best in the industry, we will repair or replace defective products free of charge for up to 15 years after installation through our LANscape® solutions extended warranty.

**What Does the Future of Data Centers Look Like? EDGE8™**

**Stay Connected to a Network of Opportunities and Solutions Welcome to the Extended Warranty (PGE) Portal!**

At Corning Optical Communications, we realize our success depends on your success. Whether your business is small, midsize or large, the goals are the same – increase profits, reduce costs, increase productivity and build valuable relationships.

Simply put, the PGE program offers more benefits than traditional installer programs. Our network enables installers to tap into an extended ecosystem of connections to learn about new industry trends and pursue known and future opportunities more effectively. # Authorized Distributors

We understand that pay-as-you-grow LAN, data center infrastructures, or fiber-to-the-edge deployments depend on modular products delivered fast. Thankfully, we've nurtured long-term relationships with authorized distributors who stock our products and further support the growing needs of our businesses' ecosystems, including training, customer needs assessment, project planning, design, and logistics. We consider our distributors a true force multiplier, a major contributor to our day-to-day and project business growth.

For more information, please visit [corning.com/cala/es/distributors](https://corning.com/cala/es/distributors)

# Technology Alliances

Corning is committed to redefining innovation in local area networks and in the data center. This never-ending drive to solve your toughest challenges ensures that we work closely with technology allies to develop leading solutions for today and beyond.

## Chatsworth Products, Inc.

Chatsworth Products, Inc. (CPI) focuses on addressing today's critical IT infrastructure needs with products and services that protect its customers' ever-growing investments. With Corning, CPI is uniquely prepared to respond to specific requirements with global availability and rapid product customization, providing a competitive advantage. CPI's unequalled customer service and technical support, as well as its global network of industry-leading distributors, enables product delivery and services designed to meet customer needs.

Headquartered in the United States, CPI operates global offices within the United States, Mexico, Canada, China, and the United Kingdom.

## Fluke Networks

Corning and Fluke Networks work together to enhance the performance and reliability of enterprise fiber optic networks, developing solutions for tomorrow's data center technologies today. Fluke Networks provides tools and support so network installers and maintainers maximize the performance of their Corning networks while minimizing downtime. Fluke Networks solutions can certify the installation of Corning systems as well as troubleshoot problems that can result from improper installation, contamination, or misuse.

Based in Everett, Washington, Fluke Networks distributes products in more than 50 countries.

# Technical Support

Your customers and users expect reliable connectivity, and we know it takes more than products to deliver on those expectations. From us, you can expect collaborative global support for your network today to prepare it for emerging applications and services.

Connect with our network professionals at any phase of your project to take advantage of their training, experience, and equipment for a cost-effective, high-quality result. Our experts offer design and training services, technical assistance, and customer support resources.

You may be entering new territory – installing fiber in the horizontal or deploying a converged, all-optical infrastructure – but your application is something we've done before. And if it's a data center you're supporting, let's talk about how we can find more value in your given footprint.
